

T Lawyers Law Office Moved to INA • L • A SPACES

Saturday, May 25, 2019 is a beautiful day. This is also the day that T Lawyers & Immigration Agents chooses to officially move to a new location and inaugurate the INA.L.A Spaces building.

The opening ceremony was at 11am, but at 10:30 there were many guests present.

The beautiful, spacious INA.L.A SPACES building is located on 700 square meters of land, located on the corner of Serviceton Avenue and Sycamore Street, which was designed with the basement as the parking lot and the upper floor as for the working space.

Looking around, the organization of the inauguration of INA.L.A Spaces, also the new office of T Lawyers office, is very busy. There is a live band presenting top hits songs. The waiters and waitresses served each guest. Food is 'finger food' as well as a traditional BBQ. Because the clients of T Lawyers office are multicultural, the food served is enough including Western, Vietnamese, Chinese and Cambodian fishes.

Food and water were also served upstairs. However, what surprised and delighted guests was the interior design of the lawyer's office - a very harmonious and professional design that is rarely seen in conventional legal advisory services.

Explaining this, the Director and owner of T Lawyers, Ms. Tieu Khiet Nhi said: "In addition to the legal field, I have a passion for design and interior decoration. We have been serving Vietnamese customers for nearly two decades, now we want to take another step by providing our customers with comfort and convenience when coming with us.

Stepping up the stairs is the reception desk. The space is spacious and well-designed. Colours are reasonably coordinated with beautiful exhibits. Ms Tieu Khiet Nhi said that all furniture has been collected by herself and ordered from different places.

The ceiling of the building is 3 meters high, providing ventilation and comfort. In general, T Lawyers' law firm includes a 4-seat reception desk, 4 working rooms for directors and senior lawyers and lease professionals, 1 personal assistant desk, 2 reception rooms, 1 large meeting room, staff working area with 10 working desks, 1 dining room / kitchen, 1 luxurious bathroom. In addition, the building also has elevators to facilitate the elderly or disabled.

Lawyer Nhi is currently working with 5 other lawyers, so we need a larger space."

The new T Lawyers Law Office is located at 58 Serviceton Avenue, Inala, just 600 meters from Inala Civic Centre. This building is located opposite the old Inala library - the centre of the Vietnamese Elders Association for the last decades and the Freedom Place of Vietnamese community in Brisbane.

When asked about the issue of 'delicacy', which is the cost to build this facility, Lawyer Nhi expressed: "At first, the project was only about \$ 1.3 million but in the construction process, there were many design points need to be changed to be more satisfied. If I'm not satisfied, I don't mind breaking it down and doing it again because I want it to be perfect. So until the completion, the construction and interior decoration is about \$ 1,550.00 and the land value at the

legal consulting services in Vietnamese.

It is known that T Lawyers specializes in providing professional legal advisory services such as real estate trading, business and commercial facility transfer, accident compensation, family law related issues and especially the immigration field that many compatriots have used for many years.

In addition to move to a new location, all contact details such as telephone, mail, email, mailboxes, and accounts of social networks remain unchanged.

INA.L.A Spaces building still has vacancies for other businesses to hire. Here the lessees are provided with a full range of equipment, from furniture to other amenities such as reception rooms, meeting rooms, kitchens, etc. If you want more information or interested in

all my employees." Ms. Tieu Khiet Nhi also added: "When deciding to build this building, I am not just for my attorney's office but also think of other "professionals". I see there are many "professionals" who are afraid to set up their own companies because of the high costs and risks. I want to build this building to create opportunities for them because of the low cost and they still have a professional work space and will create better confidence for customers."

With a striking design, outside the building are iron plates cut with red painted patterns, with a two flag-shaped logo (symbols for calculation, intellection and strategy in law practice) and law consulting services. On the side of Serviceton Road are legal consulting services in English and Chinese, Sycamore Road is

working in the newest office building in Inala, please contact T Lawyers Office directly at (07) 3879 9533.

The opening of INA.L.A Spaces and T Lawyers Law Firm were also highlighted through the beautiful and exciting traditional lion dance performance from the dojo of Lam Tu Luan with the hope of bringing luck, fortune and prosperity for businesses here.
